## Projects

### EcoGoals Habit Tracker Platform

This is a full-stack MERN project where users can create and track an eco-friendly habit to benefit their shelves as well as the environment around them

- 🔗 **Deployed Link** : <https://eco-goal-platform.vercel.app/>
- 🔗 **Github Repo** : [https://github.com/Sneha-Nahak/EcoGoal\\_Platform](https://github.com/Sneha-Nahak/EcoGoal_Platform)
- Developed a full-stack MERN application enabling users to create and track eco-friendly habits.
- Implemented secure authentication and password reset functionality using Node.js, Express.js, and MongoDB.
- Integrated calendar tracking and streak maintenance features with Day.js and Context API for effective habit monitoring.
- Designed habit analytics and reporting using Chart.js for visual representation of user progress.
- Added a contact section with email integration utilizing Nodemailer.js and styled the interface with Tailwind CSS.

### Flip Card Game

Flipcard game is a test-taking platform for users to have some fun and at the same time sharpening their brain.

- 🔗 **Deployed Link** : <https://flipcard-game-1-0.netlify.app/>
- 🔗 **Github Repo** : [https://github.com/Sneha-Nahak/Flip\\_Card\\_Game](https://github.com/Sneha-Nahak/Flip_Card_Game)
- Developed a web application using React for the frontend and Node.js with Express for the backend.
- Implemented user interface components with Bootstrap to ensure responsive and visually appealing design.
- Integrated MongoDB for efficient data storage, retrieval, and management.
- Collaborated on API development and routing to enable seamless communication between client and server.

### Portfolio Website

A portfolio website showcasing both personal and professional details about me through the implementation of R3F, React-Scroll, EmailJS, ThreeJS, React, JavaScript, HTML5 and CSS3.

- 🔗 **Deployed Link** : <https://sneha-nahak.github.io/>
- 🔗 **Github Repo** : <https://github.com/Sneha-Nahak/Sneha-Nahak.github.io/tree/sneha>
- Developed a portfolio website using React, ThreeJS, and R3F to showcase personal and professional information.
- Implemented React-Scroll for smooth scrolling to specific sections and EmailJS for contact form functionality.
- Incorporated theme handling with dark and light modes, resume download feature, and project showcase with live and GitHub links.
- Responsible for designing and structuring various sections of the website using HTML5 and CSS3.
- Utilized a tech stack including React, ThreeJS, JavaScript, HTML5, CSS3, and EmailJS for seamless website functionality.
